

PACK ARROW

End-of-line Packaging Automation

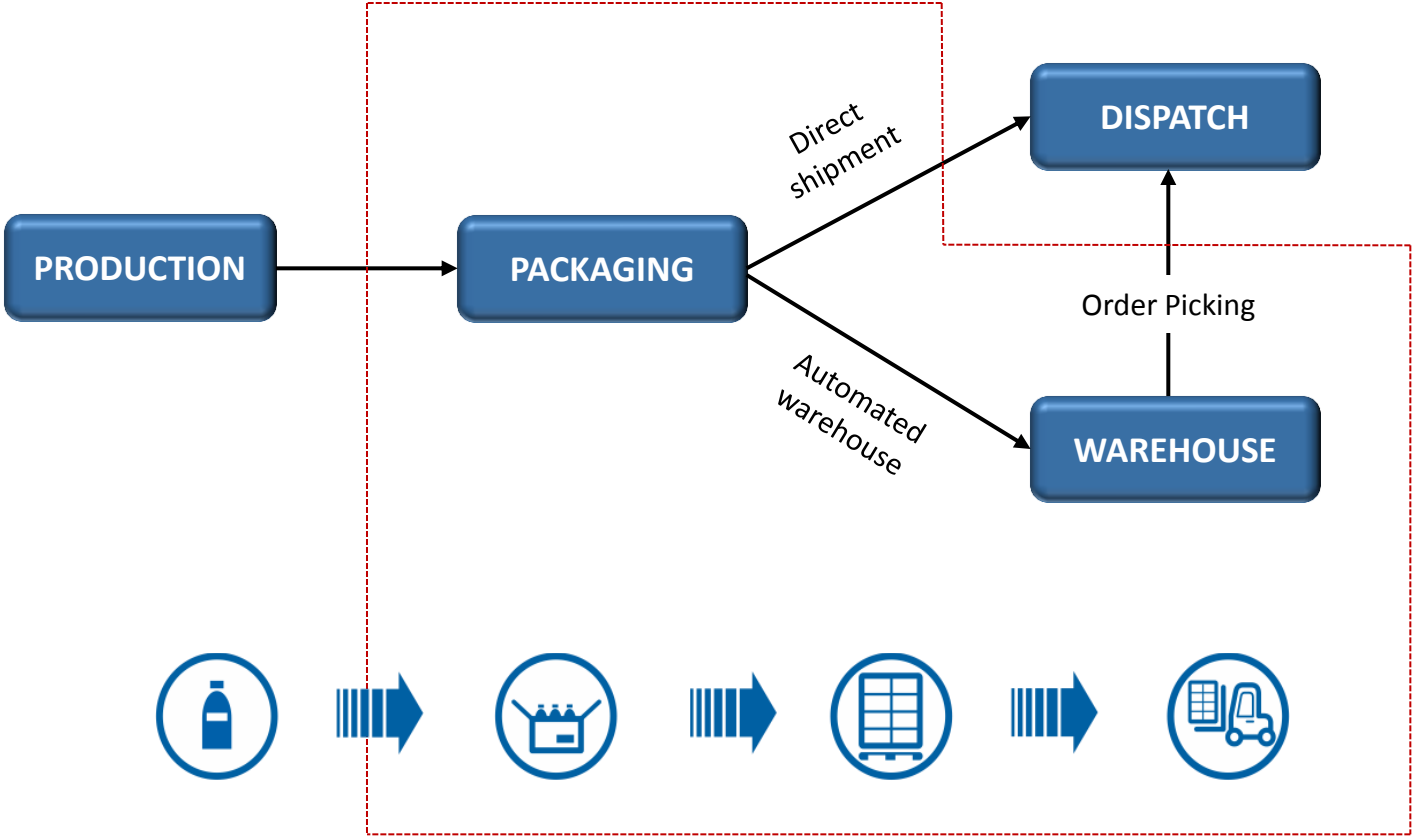

Pack Arrow: Definition

- Pack Arrow is a complete end-of-line packaging automation system
- Provides automated product and information flow, from secondary packaging to warehousing or direct shipping
- Hardware and software harmonically combined in a single package:
 - **Hardware:** Product handling and conveying, coding & labeling, checkweighing, case erection/packing/sealing, sorting, palletizing, pallet stretch-wrapping, automated warehouse
 - **Software:** Data collection, packaging line control, OEE monitoring, pallet tracking
- Target markets:
 - Manufacturing
 - Logistics & transportation
 - Retail warehousing

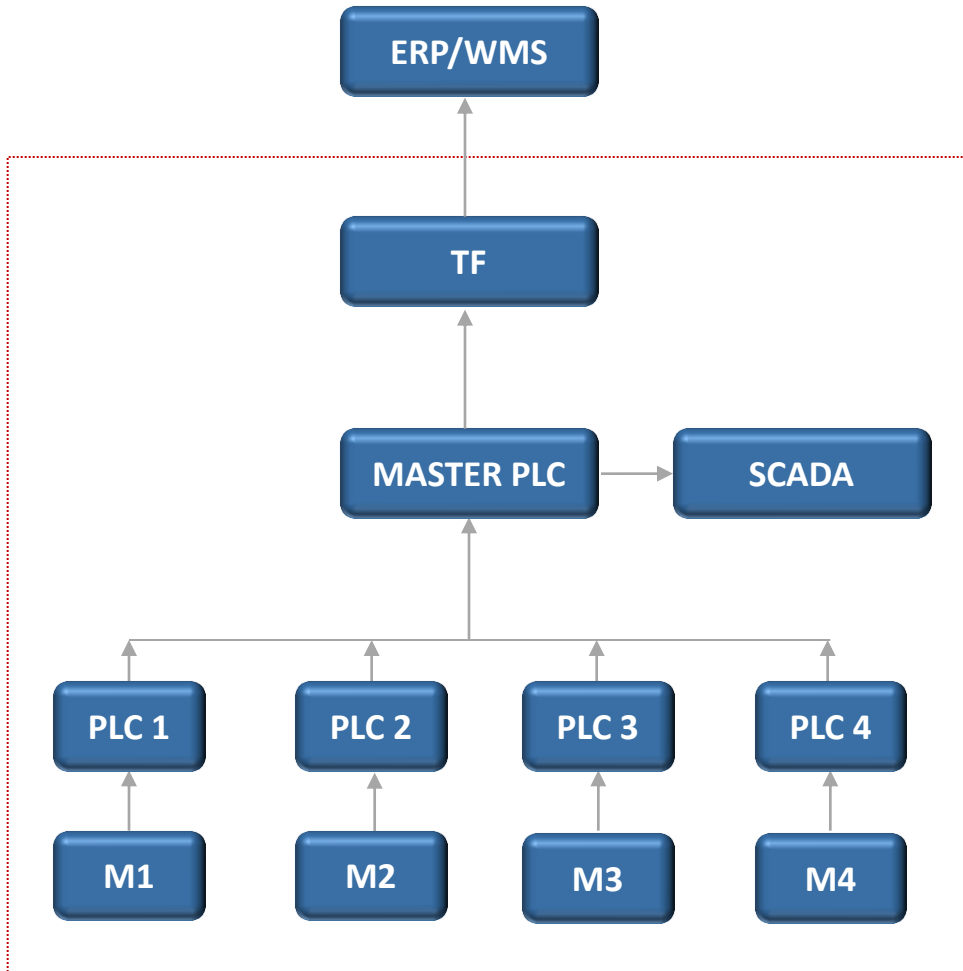

Pack Arrow: Functions

Pack Arrow: Concept

Pack Arrow: Architecture

Data Handling Layer: Data management (coding, traceability, auto-warehouse) and production metrics (e.g. no. of finished products, equipment availability , etc)

Line Control Layer: Data collection and integration through a MASTER-PLC. Packaging like control (start, stop, errors, error types) through a SCADA system.

Product Flow Layer: Equipment control through PLCs

Pack Arrow: Benefits

- Helps companies reduce production costs
- Provides smooth and automated flow of products and their information
- Offers minimum to zero operator interference
- Provides remote monitoring and control of the packaging lines
- Delivers shipping-ready units
- Synchronizes supply with demand by facilitating quick order fulfillment
- Eliminates the need for warehousing by facilitating direct shipment
- Integrates seamlessly with ERP, production and supply chains systems
- Integrates with existing factory equipment
- Incorporates shipping data for subsequent stages of the supply chain
- Helps companies monitor their OEE performance

Pack Arrow: Installations

SYNGENTA SA

- 2 pick & place systems for bottle caps
- 3 cartesian bottle casers
- Robotic palletizer for cases
- Pallet transfer
- Stretch wrapping
- Lines & tanks SCADA system

Pack Arrow: Installations

TASTY FOODS SA

- Fully automated conveyance and sorting for cases (20 SKUs)
- 5 robotic palletizers for cases
- Pallet transfer
- Stretch wrapping

Pack Arrow: Installations

ASTIR VITOGIANNIS SA

- Automatic case conveyance & handling
- Labeling & sorting for cases
- Robotic palletizer for cases
- Pallet transfer
- Stretch wrapping
